

Stetson Engineers Inc., a leading California water resources engineering consulting firm, has job openings for Entry-Level Civil and Agricultural Engineers at our San Rafael, California headquarters who are interested in water resources and irrigation engineering. Established in 1957, we are a medium-sized firm and are among the most highly respected and longest operating independent and employee-owned water firms in California. Our workload is growing with the ever-increasing competing demands for clean water and the general awareness of the importance of water to the environment. Our work covers the full spectrum of water resources engineering:

- Surface Water Hydrology
- Groundwater Development and Management
- Agricultural Engineering and Irrigation Systems Design
- Design of Hydraulic Structures
- Flood Control and Management
- Water Conservation
- Coastal Engineering
- Water Distribution Systems Modeling
- Groundwater Modeling
- Field Hydrography and Streamflow Gaging
- Hydropower and River Operations Modeling
- Water Quality Assessments
- Water and Wastewater Treatment and Reuse
- Environmental Impact Studies
- Wetland Treatment
- Water Planning Studies
- River Restoration
- Water Rights
- Expert Witness

Entry-level engineers work under the supervision of experienced engineers and perform routine engineering tasks, including calculations and analyses, modeling, design, field work, data management, and technical writing tasks. Our projects are located mainly in California but we also have projects in Arizona, Nevada, and other states, including several Indian Reservations throughout the west.

We are looking for self-driven, capable engineers who are willing to learn and get hands-on experience on a wide variety of water resources engineering projects. Ideal candidates will have recently graduated or are planning to soon graduate with a B.S. degree in Civil Engineering or Agricultural Engineering with relevant course work in some of the areas bulleted above. M.S. degree and possession of an EIT are a plus.
