

SEASONAL (PART-TIME, TEMPORARY) CIVIL ENGINEER

Stetson Engineers Inc.

2171 E. Francisco Blvd., Ste K; San Rafael, CA 94901

(415) 457-0701 ph.; (415) 457-1638 fax

Stetson Engineers Inc. is recruiting for a seasonal (part-time, temporary) **Civil Engineer** for employment in its northern California office located in San Rafael. Stetson Engineers is a water resources engineering firm with approximately 40 professional engineers, hydrologists, and geologists in offices located in northern and southern California. The position is available to a person pursuing a degree in Civil Engineering with an emphasis in water resources. Individuals who are motivated, ambitious, and interested in the potential for a long-term opportunity with Stetson are preferred to fill this internship-like position.

The candidate's responsibilities may include:

Design & Engineering Assistance:

- Pipelines & Culverts
- Pumps & Pump Stations
- Water Tanks
- Flood Control Channels
- Storage Ponds & Detention Basins
- Streambank Restoration and Fish Ladders
- Canals & Dams

Technical Support:

- Water Supply Studies
- Water Rights Studies
- Flood Control Analyses
- Grading Plans
- Detention Basins
- Groundwater and Groundwater Well Investigations
- Water Reuse Projects

The successful candidate will utilize word processing, spreadsheet, and presentation software skills on a daily basis. Typical projects may include assistance with feasibility studies, permitting, preparation of construction plans and specifications, and cost estimating associated with the responsibilities listed above. Creative thinking, a positive approach to solving difficult problems, and strong organizational skills are critical requirements for all projects. The successful candidate must possess excellent written and oral communication skills.

Resumes and cover letters may be sent to:
